

# MFDC 100

## Multi-Function Drill Control

### Functions:

- Forward speed
- Tramline count (symmetric and asymmetric)
- Area (2 total)
- Metering shaft speed
- Fan speed (or second metering shaft speed)
- Hopper level alarm
- 2 x Tramline output

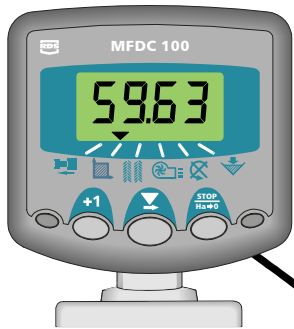

The instrument has a custom made 4 digit illuminated display with 5 switches and it is housed in a glass reinforced ABS enclosure sealed to Ip67.

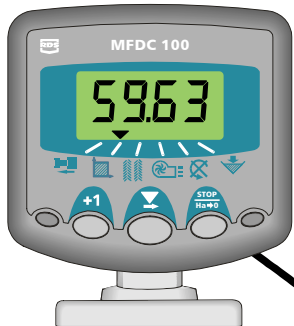

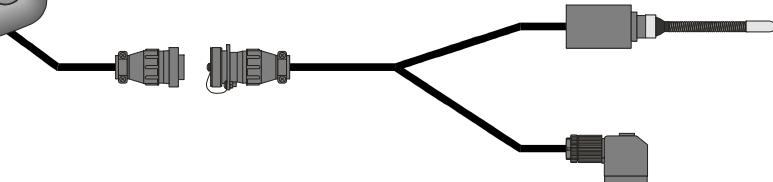

The display is cycled through the channels using the chevron switch at the bottom.
